STAT

The Director of Intelligence and Research The Department of State Washington 25, D.C.

Dear Hugh:

Attached is a biographical sketch of who has been with the Agency since 1950. He is anxious at this time to transfer to some phase of research and analysis, and unfortunately we are not in a position to offer him a place on the DD/I side of the house. While his work on the operational side has been good, he is obviously more qualified for an analytical assignment. You may recall who was in the Foreign Service.

I would appreciate it very much if you could find a spot for him somewhere in your research element.

Sincerely,

SIGNED

Allen W. Dulles
